

# Technical Requirements – Meridian / Regulus

## Operating System

- Windows 10 or Windows 11 (64-bit recommended)
- Windows 7/8 may work but is not recommended
- **Mac** only via emulator/virtualization (Parallels, VMware, etc.)
- **Not compatible** with Android, iPad, or iOS

## Minimum Hardware

- Processor: Intel/AMD 2 GHz or higher
- RAM: **4 GB minimum** (8 GB recommended)
- Disk space: 1–2 GB free (depending on modules)
- Display: 1366×768 minimum (Full HD recommended)

## Recommended Configuration

- SSD for better performance
- 8 GB RAM or more
- Resolution 1920×1080 or higher

## Connectivity

- Internet required for:
  - Activation/license validation
  - Updates
  - AI features (if used)

## Additional Software

- PDF printer or physical printer for reports
- Standard Windows fonts
- For AI features: user-provided external API

## Installation & Usage

- Install with administrator privileges
- Keep installation on the **same computer** when upgrading
- Do not run from network folders
- Antivirus/firewall must allow program connections

## Important Notes

- On Mac, performance depends on the emulator
- Not designed for touch interfaces
- Not compatible with mobile operating systems
